

Bring tax advisory to the next level with us

We need a DevOps/Cloud Engineer (M/F/X)

EXPERIENCE

3+ years

START DATE

As soon as possible

LOCATION

Cologne, Germany

Who we are

Taxy.io is an award-winning tech startup and RWTH Aachen spin-off that brings tax advice to the next level with artificially intelligent software.

What we look for

The team of Taxy.io is looking for **DevOps/Cloud Engineers (m/f/x)** who will need to have experience in scripting, container solutions, cloud computing, automation frameworks and deployment of pipelines.

Your profile:

- **3+ years experience** of having worked in a related field (System administration, development, infrastructure and scripting)
- Excellent degree in Computer Science, or a related field, or equivalent alternative education
- Excellent scripting skills, in particular in **Bash and Python**
- Several years of experience with container solutions (**Docker, Kubernetes**), as well as cloud computing (**AWS, Azure, or similar**)
- Experience with automation frameworks (**Ansible, Chef, Puppet**)
- Experience in the development of continuous integration and deployment of pipelines
- Understanding of IT security and data protection concepts
- Strong interest in new technologies and willingness to learn new things
- Very good knowledge of English and good knowledge of German

What are your tasks

- Ensuring (24/7) high availability and scalability of the respective platform
- Support over the entire life cycle, from requirements management to ongoing operation and further development of all subsequent systems
- Build automation for the deployment and further development of all CI/CD processes and environments
- Stable operation of IT services including testing, monitoring, error analysis, fault clearance and logging as well as subsequent technical documentation
- Application management for the transfer of new features to make them ready for the market
- Maintenance of the development environments and support of the development processes

Bring tax advisory to the next level with us

What you can expect

- Implementation of the latest developments from NLP research into practice
- Dealing with responsibility and working as a member of a great agile team consisting of tech experts, data scientists and experienced startup managers
- Working in a young company developing innovative products in the legal and tax sector with the chance to disrupt an industry
- The opportunity to grow professionally and personally
- Flexible working hours and places
- A beautiful and central office located in Cologne's Mediapark
- A competitive salary
- Having fun

Contact

Please submit your CV, desired starting date and a salary expectation to CIO Sven Weber hr@taxy.io and include "DevOps/Cloud Engineer" in the subject line.
